Summary

Software Engineering student at SMIU and Full Stack Developer with practical experience in the MERN stack and Next.js. Recently transitioned from personal projects to delivering production-ready web and mobile solutions for local clients. Focused on building responsive, accessible applications with clean code and modern UI/UX principles.

Education

2022–2026 **Bachelor of Science in Software Engineering, Sindh Madressatul Islam University (SMIU), Karachi**
Relevant Coursework: Web Engineering, Database Management, Software Design.

Work Experience

2026–Present **Freelance Full Stack Developer, Self-Employed, Remote**
Developing custom digital solutions for small businesses and startups, managing projects from initial design to Vercel/Cloud deployment.

- **Zentrix Marketing:** Developed a professional multi-page marketing platform (zentrixmarketing.org) featuring service showcases and integrated lead generation forms.
- **Asaan Taqreeb (Event App):** Built a cross-platform mobile application using React Native to help users browse and filter local event vendors in Karachi.
- **Real Estate Landing Page:** Created a high-conversion landing page with WhatsApp integration for direct business-to-client communication.

Professional Highlights

Technical Portfolio Maintained a public GitHub profile with 60+ repositories, showcasing a consistent learning curve and active exploration of modern web technologies.

Deployment Experienced in the full deployment cycle of web applications using Vercel, including custom domain configuration and SSL setup.

Client Relations Managed end-to-end communication, requirement gathering, and project delivery for early-stage client-facing applications.

Technical Projects

2024 **AI Journal App, Next.js, Prisma, AI APIs**
A sentiment analysis tool that categorizes user entries and provides emotional feedback using AI models.

2024 **Fitness Tracker, React Native, Redux**
A mobile app for tracking gym sets and reps with local data persistence for offline use.

2023 **Car Rental Web App, Next.js, Tailwind CSS**
A responsive booking platform featuring search filters and server-side rendering for performance.

Technical Skills

Frontend HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, Redux Toolkit
Backend Node.js, Express.js, MongoDB, SQL (PostgreSQL/MySQL), PHP, Prisma ORM
Mobile React Native, Expo
Tools Git, GitHub, Vercel, REST APIs, Linux Basics
